

LINN

KEY FEATURES INCLUDE

- DC-coupled reference MC phono preamplifier
- Two gain settings to suit most high and low output moving coil cartridges
- Ultra-short signal paths
- Super silent power supply
- Surface mount technology to minimize interference and noise pick-up

The LINTO is the ultimate Phono Preamplifier for those who have a vinyl collection. Dedicated to capturing and nurturing the phono signal information at its most delicate and sensitive stage, this direct-coupled precision Moving Coil Phono preamplifier is designed to retrieve the most tiny, elusive and critical detail of musical information from your records.

The LINTO has a choice of two gain settings so it can be used with both low and higher output moving coil cartridges as well as virtually any high quality turntable or preamplifier.

The LINTO demonstrates Linn's continued commitment to our most enthusiastic music loving customers and provides them with a new reference standard for the reproduction of their recorded music.
