

LINN
THE ONLY SOUND

KEY FEATURES INCLUDE

- I Class V Amplifier.
- I Digitally controlled signal processing.
- I 500W RMS/1000W peak power output.
- I Internal microprocessor.
- I High density switchmode power supply.
- I 8 manually adjustable parameters.
- I Stereo line and speaker level inputs.
- I Variable automatic standby on loss of input signal.
- I High power, monolithic linear amplifier.

The Linn Sizmik 10.25 is a compact, powerful, super efficient, high performance Bass Reinforcement Loudspeaker. Designed for high fidelity music, home-cinema and multi-room applications, the Linn Sizmik 10.25 combines clean, pitch accurate extended low frequency performance with installation versatility and a discrete appearance.

Digital signal processing and adjustable triple filters deliver over 1000 watts of Linn music power to a 10" long-excursion drive unit for accurate bass reinforcement that can improve and extend the scope of any high quality loudspeaker system. Digitally controlled signal processing and a wide operating range enable the Linn Sizmik 10.25 to match precisely the full spectrum of large and small loudspeakers.

The cool running, hum and buzz free Linn Sizmik 1000 amplifier is a 'Class V' amplifier combining three key new Linn technologies – fast Switch Mode Power Supplies, high density linear power amplifiers and digitally controlled signal processing.

All the parameters of the Linn Sizmik 10.25 can be easily adjusted to suit individual user requirements via three buttons and the simple display on the back of the amplifier module.

The versatile design of the Linn Sizmik 10.25 enables omni-directional vertical or horizontal operation for floor-standing, rack or video wall mounting and it is available in Black Ash, Black Spatter, American Cherry and new Maple finishes, from Linn dealers worldwide.

LINN SIZMIK 10.25

SPECIFICATION

Compact, powerful, super efficient, high performance bass reinforcement active bass loudspeaker

LINN SIZMIK 10.25

TECHNICAL SPECIFICATION

Compact, powerful, super efficient, high performance bass reinforcement active bass loudspeaker

Introduced	2000
Type	Pitch precise bass reinforcement loudspeaker with integral active amplification and equalisation circuitry for stand-alone use
Function	Active bass loudspeaker. 500W built in amplifier. Adjustable roll off for seamless system integration. 25 litres. 9Hz - 220Hz frequency response
Applications	Hi Fi and AV bass extension loudspeaker
Construction	38mm and 19mm MDF cabinet, horizontally braced. Balanced veneers. Power amplifier module contained in separate cavity
Control interfaces	Signal sensing auto switch on/off for energy conservation and local remote control
Drive units	10 inch, paper coned, long throw, high motor force, bass driver
Protection	Fully protected against overload, over temperature, full short and overdrive protection
Mains supply	110VAC > 120VAC @ 50/60Hz 220VAC > 240VAC @ 50/60Hz
Output power	500W RMS, 1000W PEAK
Standby power consumption	6 Watts
Connectors	Line level audio in and loop out RCA phono Line level high pass output RCA phono High level 4.0mm input connector
Width	360mm (14.1 inches)
Depth	360mm (14.1 inches)
Height	391mm including feet (15.4 inches)
Finishes	Black Ash, American Cherry, Maple, Black Spatter
Adjustment features	- 4 step internal low pass frequency @ 50, 80, 120Hz and flat - 9 step internal high pass frequency from 9 @ 220Hz - 9 step external high pass frequency from 9 @ 220Hz - Gain adjustable 35dB in 1dB steps. - 3 step bass equalisation - Absolute phase @ true or inverted - 4 step time out after signal loss @ 5, 10, 20 seconds or on continuously
Weight	19kg
