

Klimax DSM Quick Start

Thank you for purchasing the Linn Klimax DSM player. This guide provides basic unpacking and connecting information to get you started - contact your Linn Specialist for full installation support.

Unpacking

- Remove product from packaging and place on a flat surface
- Please retain all packaging for future transport of Klimax DSM

Contents

- 1 x Klimax DSM player
- 1 x mains lead
- 1 x slimline infra-red (IR) handset (with 2 x CR2032 batteries)
- 1 x pair of Linn Silver interconnect cables (Not included with Klimax DSM Hub)

Positioning

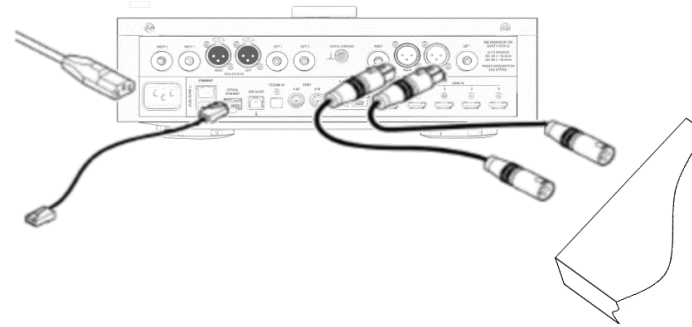

- Place unit on a flat, stable and rigid surface
- Place unit within range of your network router or switch
- **IMPORTANT:**
Linn recommends the use of separate dedicated network components, including router, switch and wireless access point (if required for wireless control). Alternatively, a dedicated integrated router/switch/wireless device is preferable to simply connecting the unit directly to your home broadband router.
- Avoid positioning the unit in direct sunlight as this can interfere with the infra-red (IR) sensor on the front panel
- Do not stack components and avoid placing near other heat sources.
- Allow space all the way around the unit for air circulation

Connecting

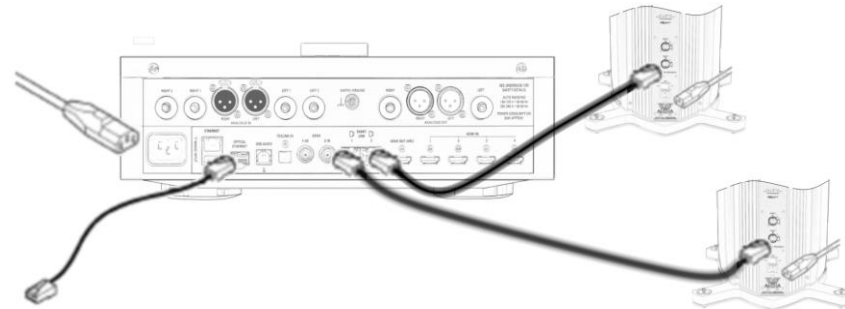

1. Before making any connections, switch off any power amplifier(s) or mains-powered speakers in your system

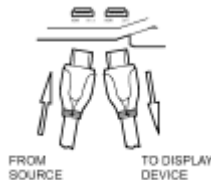

2. If you are connecting your Klimax DSM to a power amplifier, then make the connection from Klimax DSM to power amplifier(s) using either the left and right Analogue Out (cables supplied) or Balanced Out sockets:

Or using Exakt loudspeakers:

3. Connect the Klimax DSM Ethernet socket to your network using a standard Ethernet cable or use Fibre Ethernet cable for optical ethernet.
4. If you have any external sources you wish to connect to your Klimax DSM, such as a Blu-ray, DVD player or satellite TV... connect these to the appropriate analogue, HDMI, SPDIF or TOSLINK IN socket.
 - If connecting HDMI video sources to your Klimax DSM, you must also connect an HDMI cable from HDMI OUT back to your display device to ensure video is displayed (audio will also be automatically passed through to your display source if the Klimax DSM is in Sleep mode)
5. Connect your mains cable but do not power on the unit yet.
6. If you have a NAS, ensure this is connected to your network and powered on

Setup

Step 1 - add Klimax DSM to network

- 1.1 Connect the Klimax DSM and power the unit on using the switch (under front-right corner)
- 1.2 The Klimax DSM control dial will show a shimmering pattern for approx. 30seconds before changing to a Linn logo

Step 2 – add network control & setup

- 2.1 Install Kazoo on your PC, Mac, Android phone or Apple iPhone/iPad from <https://www.linn.co.uk/uk/support/software-apps>
- 2.2 Launch Kazoo app and it will detect any DS players connected to the network and automatically select the first discovered DS player - if none is displayed, check the Room Selection menu, (top centre), or go into setting and check you are on the same ethernet network, (subnet) as you Linn Klimax DSM.
- 2.3 When you have a room selected press the Bookstack icon  on the top left and select settings. In this menu select **Linn Account** and sign into your Linn Account. (If you do not have one then you can create by pressing the [Sign up...](#) link.)
- 2.4 **ADD** you Klimax DSM to your Linn Account and proceed to Step 3.

Go to <https://docs.linn.co.uk> for further help

Step 3 - run Manage Systems

- 3.1 Open a web browser and go to address: <https://www.linn.co.uk/account/music-systems> and login using your Linn Account (as per 2.2 above)
- 3.2 Select your Klimax DSM from this list, as this is a new product it will be called "MAIN ROOM". This will now allow to configure the Klimax DSM, including naming the Room and any connected sources..
- 3.3 If you have Exakt speakers connected to the Klimax DSM then these can be setup in the General tab in the Devices section. You will need to assign which Exakt loudspeaker is assigned to the left and right hand channels.

Go to https://docs.linn.co.uk/wiki/index.php/Manage_Systems if you have any problems or questions.

Step 4 - play music

You can use the Kazoo App as loaded in Step2 as well as control using the dial and PIN buttons:

- 4.1 Press this control dial down briefly to bring the Klimax DSM out of Standby.
- 4.2 Rotate the dial clockwise/anti-clockwise to turn volume Up/Down
- 4.3 To go into Standby press the dial CENTRE and continue to press the CENTRE for approximately 2 seconds until the volume indicator dial starts to decrease.
- 4.4 Select the Radio source by

- 4.4.1 Pressing the bottom of the dial, (closest to the front of the Linn DS), this will show the source listing.
 - 4.4.2 Press the dial top or bottom to scroll up or down the list
 - 4.4.3 Highlight 'Radio' then press the dial right to select this source, or left to cancel
 - 4.4.4 Use the same dial up/down to scroll through the Radio pre-sets and press dial right to select or dial left to cancel.
- 4.5 Select source by
 - 4.5.1 Pressing the bottom of the dial, (closest to the front of the Linn DS), this will show the source listing.
 - 4.5.2 Press the dial top or bottom to scroll up or down the list
 - 4.5.3 Highlight the source you want then press the dial right to select this source, or dial left to cancel
 - 4.6 To PLAY/STOP/PAUSE a quick press of the dial CENTRE will toggle between PLAY and STOP/PAUSE. (Radio-PLAY/STOP, Playlist-PLAY-PAUSE).
 - 4.7 to Skip tracks/pre-sets a quick press of the dial LEFT or RIGHT jump to Playlist tracks or Radio stations.
