

LINN

KEY FEATURES INCLUDE

- Versatile high performance installed multi-room and home theatre loudspeaker
- Paintable finish to match any décor
- Passive and active options

The Sekrit in-wall loudspeakers provide practicality, performance and style, allowing high quality audio to be reproduced whilst remaining virtually invisible. The Sekrit is designed to be fitted in a plasterboard/ wood construction partition wall or ceiling. The baffles/ grilles can be spray-painted to match the room décor.

The durable baffles and drive units make it possible to install in-wall Sekrit loudspeakers in places not normally considered. They are equally at home in kitchens, bathrooms or even the most elegant lounge setting.

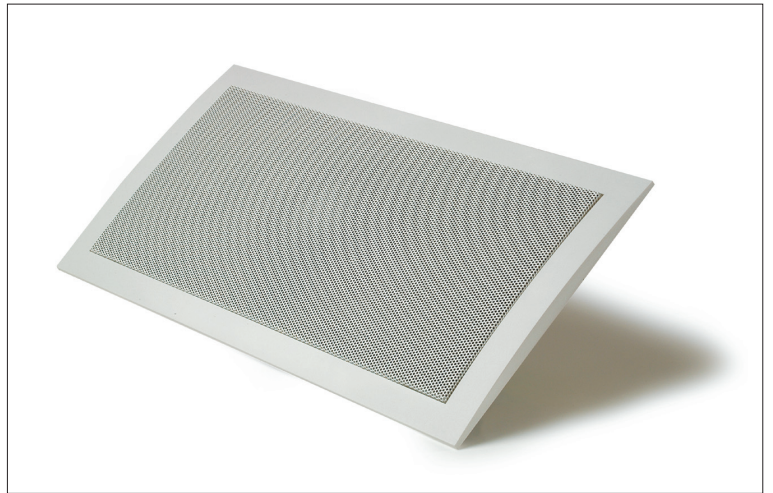

Sekrits are ideally suited to surround-sound installations as both front and rear channel loudspeakers. A single Sekrit mounted in the wall behind your television makes a good centre channel loudspeaker.

In keeping with Linn's philosophy, the Sekrit in-wall loudspeakers are fully upgradeable, each stage providing a notable improvement in acoustic performance, through bi-wiring, bi-amping or Aktiv.

SEKRIT

SPECIFICATION

In-wall loudspeaker

1

SEKRIT

TECHNICAL SPECIFICATION

In-wall loudspeaker

Introduced	1994
Type	2-way Infinite Baffle loudspeaker
Frequency response passive	80Hz – 20KHz +/-3dB (with at least 20 litres wall cavity volume)
Aktiv	65Hz – 20KHz +/-3dB
Input impedance passive	4 Ohms
Aktiv	6 Ohms treble, 4 Ohms bass
Voltage sensitivity	90dB/2.83Vrms at 1m
Amplifier power minimum	30W/8Ohms, 60W/4Ohms
	Features Treble level that can be reduced by 1dB on crossover board
Wiring options	Single wiring, Bi-wiring, Bi-amplification, Aktiv Bi-amplification
Drive units	25mm aluminium alloy dome tweeter 150mm custom bass/midrange
Size	H 444mm x W 228mm x D 86mm H 17.5 inches x W 8.9 inches x D 3.4 inches (14mm visible from wall surface)
Mounting depth	72mm from surface of wall into the cavity
Weight	3.1kg / 6.8lbs each (including mounting frame)
