## Asak & Asaka Moving Coil Cartridge

### Technical Specifications

|                               |                                 |
|-------------------------------|---------------------------------|
| <b>Body</b>                   | Asak – Plastic<br>Asaka - Metal |
| <b>Frequency response</b>     | 20Hz – 20KHz +/- 1dB            |
| <b>Separation @ 1KHz</b>      | Better than 27dB                |
| <b>Tracking weight *</b>      | 1.5 – 1.7Grams                  |
| <b>Channel Balance @ 1KHz</b> | Within 1dB                      |
| <b>Recommended load</b>       | >10 ohms; Nominal 470 ohms      |
| <b>Capacitance loading</b>    | Not critical                    |
| <b>Stylus type</b>            | Vital                           |
| <b>Tracking angle</b>         | 20deg                           |
| <b>Weight</b>                 | 7 Grams                         |
| <b>Compliance (cu)</b>        | 10                              |
| <b>Output voltage</b>         | 100uV                           |

\* Tracking weight is normally set to 1.6 – 1.7 for moving coil cartridges. Exact tracking weight should be set by listening at normal room temperature.
