2

The new Linn Melodik Active Isobarik Bass loudspeaker is the ultimate pitch accurate bass reinforcement loudspeaker. Designed to enhance two channel, multi channel and multi room entertainment systems, the Linn Melodik adds extra performance, power and atmosphere, delivering accurate tonal performance without unnaturally intruding or detracting from the original source material.

The Linn Melodik is an omni-directional low frequency loudspeaker, incorporating twin 305mm (12") Isobarik coupled drivers with powerful, integrated active amplification, signal sensing and protection control circuitry.

The versatile design of the Linn Melodik enables omni-directional vertical or horizontal operation for floor-standing, rack or video-wall mounting. It can also be stacked for higher power or commercial multi-media applications.

The Linn Melodik ensures an exceptionally accurate sound when combined with even the most compact of Linn loudspeakers. When brought into any loudspeaker system, this 'bass reinforcement loudspeaker' provides a seamless extension of the performance, adding a new dimension to music and film alike.

The Linn Melodik is available in attractive black ash, American cherry and new maple, finish from qualified Linn outlets worldwide.

## TECHNICAL SPECIFICATION

A new pitch precise bass reinforcement loudspeaker with integral active amplification and equalisation circuitry

■	Introduced	2001
■	Type	Active Isobarik bass reflex loudspeaker
■	Frequency response	15Hz to 100Hz +/-3dB
■	Input impedance	5K ohms
■	Amplified power	200W built in amplifier
■	Drive units	Two 305mm (12") polypropylene cone bass driver
■	Applications	Hi-fi sub bass, AV sub bass
■	Size	H 483mm x W 640mm x D 483mm H 19 inches x W 252 inches x D 19 inches
■	Weight	46kg / 101lbs
■	Finishes	Black ash, American cherry or maple
