

LINN

#### KEY FEATURES INCLUDE

- I 2 digital inputs allowing easy connection to set top boxes
- I Decoding of external analogue sources
- I Combined CD/DVD engine for high-performance audio and video
- I Multi-channel power amplification for home-theatre applications
- I 5.1 channel Dolby® Digital, Pro Logic II® and Dolby® DTS Decoding
- I Plug-and-play multiroom capability that allows connection to up to four Linn Classik Music systems in remote rooms
- I Component video output
- I AM/FM tuner with 200 station presets and adjustable threshold control
- I Pre-terminated CAT 5 and loudspeaker cabling available

The Classik Movie System Di is Linn's latest integrated audio and video source product. This total entertainment solution combines CD playback, AM/FM tuner, multi-room distributed audio, external analogue source decoding and multi-channel DVD including component video output.

Listen to your favourite music, watch the latest movie or catch up with the radio news. Alternatively, connect up a games console and experience the thrill of the game in full Dolby® Digital 5.1 surround sound. Whatever your preference, the Classik Movie System Di offers unrivalled functionality from a compact, easy to operate, simple to install system.

A sophisticated CD/DVD engine together with Dolby®-Digital/DTS decoder for the internal DVD source, external sources and 5.1 channel amplification help create the unique cinema experience in your own home with true Linn performance.

The added functionality of multiroom distributed audio means that audio from a Classik Movie System Di in the main room can be enjoyed throughout the home by simply connecting to additional Linn Classik Music systems. This plug-and-play multiroom system is simple to install using pre-packed, pre-terminated CAT5 cable.

The Classik Movie System Di can also integrate with the Linn Knekt multiroom system via the optional Linn Knekt room control keypad installed and programmed by a qualified Linn Installer.

Available in a choice of 5 colours – silver, Koral blue, Arctik white, Baltik green and black – the new Linn Classik Movie System Di offers outstanding integration from a compact surround sound home cinema package.

# CLASSIK MOVIE SYSTEM Di

## TECHNICAL SPECIFICATION

An innovative, high-performance total entertainment solution for music, movies and multiroom

■	Introduced	2003
■	Dimensions	H 80mm x W 320mm x D 325mm H 3.1 inches x W 12.6 inches x D 12.8 inches
■	Weight	5kg / 11.1lbs
■	Power consumption	8W standby 40W operational 750W maximum
■	Main supply fuse	T6.3A 250V (internal)
■	Main supply range	(90 - 126) 115V setting (207 - 253) 230V setting
■	CD / DVD engine	Triple beam laser pick up
■	Audio decoding	Dolby Digital, Dolby Pro Logic II, DTS
■	Video decoding	PAL and NTSC signal operation
■	Compatible	DVD, CD, VCD, MP3, CD-R
■	Audio inputs (SCART)	2 Audio inputs in RCA phono 2 Audio inputs on SCART (TV, VCR) 1 Audio tape out 2 Optical digital inputs
■	Video inputs (SCART)	TV SCART Composite, svideo and RGB outputs Function switching ability VCR SCART Video in and pass through to TV on composite, S-video and RGB S-video in & out in 4 pin din 1 audio tape out
■	Audio outputs (PHONO)	4 audio inputs - AUX1, AUX 2, TV & VCR
■	Video outputs (PHONO)	Composite in & out - RCA phono Svideo in & out - 4 pin din YPbPr in & out - RCA phono
■	Power amplifier	75W RMS per channel into 4 ohms
■	Tuner	FM aerial-1 f-type terminal AM aerial-2 screw type terminals
■	Tuner range	USA: FM 87.5 MHz to 108.5 MHz AM: 530 kHz to 1730 kHz Europe: 87.5 MHz to 108.5 MHz AM 530 kHz to 1730 kHz
■	Tuning resolution	FM TUNE mode: 50 kHz, FM SCAN mode: 100kHz, AM TUNE Mode: 1kHz, AM SCAN mode: 10kHz USA, 9kHz Japan and Europe
■	Presets	200 user definable presets
■	Signal strength	0 to 50 scale
■	Headphone	Output impedance - 13 ohms
■	Load impedance	8 ohms to 4 ohms
■	Multiroom	4 RJ45 sockets Accessory socket: Allows connection of a Linn Room Controller unit. Room In: allows connection of balanced audio and communication between other Classiks or the Linn Knekt system. IR Flasher 1 and 2: Allows connection of an IR diode to allow control of other equipment. 6mA constant current output. Modulation frequency can be varied from 20kHz to 450 kHz
