

CENTRIK

Versatile, full range centre-channel loudspeaker with extended bass capabilities suitable for multiple audio and video sound system applications.

- Advanced Linn drive units with low magnetic field ensure TV compatibility and intelligibility of dialogue when used as the centre channel
- Exceptional dispersion characteristics ensure the dialogue can be heard clearly over a wide area
- Full-range performance makes it suitable for high quality music systems and all five channels of a video sound
- Can be mounted on bookshelf or wall

Introduced:	1994
Ceased Production:	1996
Type:	Single Centre 2-Way Infinite Baffle Loudspeaker
Frequency Response Active:	55Hz-20kHz +/- 3dB
Passive:	75Hz-20kHz +/- 3dB
Input Impedance Active:	8 Ohms per drive unit
Passive:	4 Ohms
Efficiency:	92dB for 1W at 1m (1kHz)
Minimum Amplifier Power:	60W/4 Ohms
Drive Units:	19mm ceramic-domed treble, 2 x 160m carbon loaded polypropylene bass/midrange
Applications:	Single-wired, Bi-wired, Bi-amped, Active Bi-Amped, Active Tri-amped
Size:	W 516mm x D 275mm x H 200mm
Weight:	11.5kg
