

LINN

#### KEY FEATURES INCLUDE

- Combined CD/DVD engine for high-performance audio and video
- Multi-channel power amplification for home-theatre applications
- 5.1 channel Dolby-Digital and DTS decoding
- Plug-and-play multiroom capability that allows connection to up to four Linn Classik Music systems in remote rooms
- Component video output
- AM/FM tuner with 200 station presets and adjustable threshold control
- Pre-terminated CAT 5 and loudspeaker cabling available
- On-screen graphics for volume
- Live adjustment of centre and sub volume levels whilst playing DVD

The new Classik Movie System represents Linn's first video source product. Integrating CD playback, AM/FM tuner, multiroom distributed audio and multi-channel DVD including component video output, the new Classik Movie System is the total entertainment solution from the sound specialists.

Listen to your favourite music, watch the latest movie or catch up with the radio news – the Classik Movie System offers unrivalled functionality from a compact, easy to operate, simple to install system.

A sophisticated CD/DVD engine together with Dolby-Digital/DTS decoder for the internal DVD source and 5.1 channel amplification helps create the unique cinema experience in your own home with true Linn performance.

The added functionality of multiroom distributed audio means that audio from a Classik Movie System in the main room can be enjoyed throughout the home by simply connecting to additional Linn Classik Music systems. This plug-and-play multiroom system is simple to install using pre-packed, pre-terminated CAT5 cable.

The Classik Movie System can also integrate with the Linn Knekt multiroom system via the optional Linn Knekt room control keypad installed and programmed by a qualified Linn Installer.

Available in a choice of 5 colours – silver, Koral blue, Arctik white, Baltik green and black – the new Linn Classik Movie System offers outstanding integration from a compact surround sound theatre package.

## CLASSIK MOVIE SYSTEM

### SPECIFICATION

An innovative, high-performance total entertainment solution for music, movies and multiroom

# CLASSIK MOVIE SYSTEM

## TECHNICAL SPECIFICATION

An innovative, high-performance total entertainment solution for music, movies and multiroom

Introduced	2002
Dimensions	H 80mm x W 320mm x D 325mm H 3.1 inches x W 12.6 inches x D 12.8 inches
Weight	5kg / 11.1lbs
Power consumption	8W standby 40W operational 750W maximum
Main supply fuse	T6.3A 250V (internal)
Main supply range	(90 - 126) 115V setting (207 - 253) 230V setting
CD / DVD engine	Triple beam laser pick up
Audio decoding	Dolby Digital, Dolby Pro-logic, DTS
Video decoding	PAL and NTSC signal operation
Compatible	DVD, CD, VCD, MP3, CD-R
Audio inputs	3 Analogue inputs 1 Tape input 2 Analogue inputs handled by SCART on non US model
Audio outputs	1 Tape output 6 Variable line level Pre-outputs 2 Analogue outputs / SCART on non US model 1 Optical digital output
Video inputs	1 Composite / SCART on non US model 1 S-Video
Video outputs	Scart Version – Composite, S-Video or RGB Phono Version – 2 x Composite, S-Video or Y, Cr, Cb
Power amplifier	75W RMS per channel into 4 ohms
Tuner	FM aerial-1 f-type terminal AM aerial-2 screw type terminals
Tuner range	USA: FM 87.5 MHz to 108.5 MHz AM: 530 kHz to 1730 kHz Europe: 87.5 MHz to 108.5 MHz AM 530 kHz to 1730 kHz
Tuning resolution	FM TUNE mode: 50 kHz, FM SCAN mode: 100kHz, AM TUNE Mode: 1kHz, AM SCAN mode: 10kHz USA, 9kHz Japan and Europe
Presets	200 user definable presets
Signal strength	0 to 50 scale
Headphone	Output impedance - 13 ohms
Load impedance	8 ohms to 4 ohms
Multiroom	4 RJ45 sockets Accessory socket: Allows connection of a Linn Room Controller unit. Room In: allows connection of balanced audio and communication between other Classiks or the Linn Knekt system. IR Flasher 1 and 2: Allows connection of an IR diode to allow control of other equipment. 6mA constant current output. Modulation frequency can be varied from 20kHz to 450 kHz
